MAY UNITE  
TWO CHURCHES

Baptists and Methodists in  
Randolph Considering it

## THE FORMER LOSE PASTOR

Separate Meetings of the Two Congregations Will Be Held To-morrow Night to Take Action on the Proposed Merger of Efforts.

Randolph, June 24.—A meeting was held in the vestry of the Baptist church on Monday night to consider the advisability of uniting forces with the Methodist church. Rev. W. S. Bradshaw will close his pastoral with next Sunday's services, leaving the Baptist church without a pastor. When the state missionary of the church, the Rev. W. A. Davidson, was here some few weeks ago, he met with one of the prominent Baptist men, called upon Rev. Joseph Hamilton, making the proposition that the two churches join in amicable arrangements could be made. The subject has been under consideration for several days and at the meeting on Monday night it was decided best to call a meeting of the entire membership of the church to be held in each church on Thursday evening to further consider and act upon the question.

It is understood that the purpose is at present to unite both churches in the morning services, the Sunday school young people's society and Ladies' Aid, and secure the services of the Rev. Joseph Hamilton for pastor for this year; the place of holding services to be determined.

The Baptist church building is of brick in modern style with a fine tower in its tower, the gift of the late William H. DuBois in memory of his first wife, who was very active in the work of this church and an attractive interior with a larger seating capacity than any other church in town. In the rear of the church is the parsonage, which is an attractive home. The Methodist church building is of wood which is just now being made more attractive by a fresh coat of paint. The interior has within a short time been newly decorated and carpeted and last year the pipe organ purchased of the Bethany church was placed in the choir loft. The two church buildings are both located on Main street within a short distance of each other, each of which are a fine property.

If it should be thought best by the churches and they give a favorable vote for federation, a much stronger and more effective working church will no doubt be the result, as both have suffered serious losses by death, and removed from town. Meanwhile all wait with interest the result of the next meeting. The committee from the Baptist church were Rev. W. S. Bradshaw, H. B. Bell, H. M. Totman, E. N. Rising and Alfred Webster; from the Methodist, Rev. Joseph Hamilton, Dr. Bailey, A. N. Hayes, O. B. Copeland and D. H. Howe.

## NO VISITORS AT OYSTER BAY.

Taft and Wright Going There Saturday.

Washington, June 24.—No visitors will be received by the president at Sagamore this until Saturday. On that day Secretary of War Taft and his successor, Gen. Luke E. Wright, will arrive on the noon train and be taken in one of the two powerful automobiles used by the secret service men to Sagamore Hill. The entire afternoon will be devoted to them by the president and affairs connected with the war department, especially regarding its future policy under Mr. Wright, probably will be discussed. Taking advantage of the cooler weather yesterday morning, the president went for a long horseback ride, returning at 11:30 a. m.

AMBASSADOR BRYCE  
PRAISES ROOSEVELT.

Almighty Will Keep Canada and United States Friends, He Says.

Duluth, Minn., June 24.—"Canada and the United States are destined by the Almighty to be friends," said James Bryce, ambassador of Great Britain to the United States, in a speech at the Commercial club banquet given in his honor.

"You have many settlers in the United States from Canada and in Canada we have many from the United States. It is my privilege to try to prevent any misunderstandings or friction between Canada and the United States."

"No British ambassador could have more respect and confidence than I have in that great and brilliant man, President Roosevelt, who is honored and esteemed in Great Britain as he is honored and esteemed here."

"During the last few months four treaties have been signed that are destined to overcome difficulties that may hereafter arise between the United States and Canada. These are proofs of the cordial relations that exist between these countries."

## STOLEN MAIL POUCH RECOVERED

But Robber Made Away With the \$50,000 in Currency.

Kansas City, June 24.—The registered mail and \$100,000 worth of diamonds and jewelry, stolen from a mail car at the Union station here on the night of June 6, was found Monday afternoon by a switching crew in the railroad yards of the Rock Island railroad in Kansas City, Mo. The pouch still contained a number of valuable articles of jewelry, but four empty envelopes showed that the thief had made good on the smaller part of his haul.

The postal officials Monday night refused to divulge the value of the jewelry recovered, but it is believed that almost all of the original shipment was intact in the pouch.

## IN BOSTON MARKETS.

Receipts for Butter Continue to Be Very Heavy—Prices Easy.

Boston, June 24.—Receipts of butter continue heavy, but there is no improvement in the demand and the prices still have an easy tendency. The supplies of cheese do not increase very fast, and as the demand is good, prices are well sustained, especially for fine goods. Fancy, fresh eggs are firm and tending higher, but ordinary stock is plenty, dull and easy.

## FEEDING VALUE OF HAY.

Changes Result in More Milk from the Cows.

We have been through our usual experience with hay again this spring, says a writer in the Rural New Yorker. A gain has resulted in milk production from an even 140 quarts a day to 165 quarts, just by a change in the hay fed the cows. A friend called the other day and said he had two cows in the village that had been in milk for some time and were giving an average of 32 pounds a day. He changed the hay and they dropped almost to 16 pounds. That is a larger drop than I ever noted from changing hay, but these experiences with hay are so frequent that we know to a practical certainty what to expect from a given quality of hay fed the cows. There is no grain ration that can make up for poor hay, or even medium hay, as compared with first quality for cows. This time our own change was from that got wet and hurt a little to hay that was harvested under the best conditions.

Possibly, too, the poorer hay may have been a little coarser. Coarse timothy hay makes a poor ration for milk cows. That is the trouble with the hay mentioned by my friend. He has made a considerable effort to change his farm from a low production of hay to that of nearly three tons an acre. He says he gets the quantity, but for feeding cows it isn't good for anything. That may be an exaggeration, but we are able to get nothing that equals our mixed grasses, quite a portion of which is blue grass, for feeding cows. Moreover, we raise that hay for \$3 a ton and we harvest it for \$3 more. We cannot get very large yields, but we get excellent quality at moderate cost. We try for clover and timothy, and sometimes succeed. Perhaps we make a little by trying, but the hay question hasn't reached a positive solution yet.

On our farm we are studying how to get at least fair yields of hay of good quality for feeding our cows. If possible, we want to do this without plowing because of the labor problem. We are obliged to plow when weeds get in possession, but we would like to get good yields on all other plots without using the plow. We top-dress a good deal, and this year we have a dozen or more experimental plots in our meadows where we apply commercial fertilizers, ashes, lime

## PACIFIC TO BE SCENE

## OF THE NEXT GREAT WAR

British Admiral Also Says Greater Battleships Are Coming.

San Francisco, June 24.—Sir James E. Elphinstone Erskine, senior of the 815 admirals of the British fleet, has arrived here on his way around the world, accompanied by his wife and family. In an interview he is quoted as expressing his opinion that the Pacific will be the scene of the next great ocean warfare—though he would not say between what powers.

He also expressed the conviction that still greater battleships than ever yet have been planned would be laid down in future naval programs—that the vessels of the Dreadnought type had not reached their fullest development.

## CHILD BURNED TOWN.

Played with Matches and Started Three Rivers Blaze.

Three Rivers Station, Quebec, June 24.—The total loss from the fire which swept this city Monday is estimated in a statement issued by the municipal authorities as totaling about \$3,000,000. An area of half a mile square, including the entire business and commercial district of the town, was swept by flames, 400 buildings in all being destroyed. Six lives were lost and 600 families made homeless.

The fire was caused by a child playing with matches. She set fire to a bundle of hay, and within an hour 300 buildings had caught from this small beginning.

## SINCE JUNE 8.

Claremont Man Has Been Among the Missing for Weeks.

Claremont, N. H., June 24.—The friends of George A. Keyes, Jr., are anxious to learn his whereabouts. He left his home in West Claremont on June 4, saying he would return soon. He was last seen at the Sullivan house on June 8, when he was supposed to have started to go home, but failed to do so. He is a painter and about 32 years of age. He is quiet, yet genial and well-liked by those who knew him. It is

## HELD FOR BLOWING UP BRIDGE.

Bound Over for the Crime at Fall River, Mass.

Fall River, Mass., June 24.—George O'Donnell of New York City, was adjudged probably guilty of the charge of blowing up the iron work of the Somerset bridge of the New York, New Haven & Hartford railroad with dynamite, June 15, and held in \$10,000 for the November term of the superior court, by Judge McDonough of the second district court here yesterday. On the charge of assault with a dangerous weapon, O'Donnell was held in \$10,000, making the total amount of his sureties \$20,000. The damage to the bridge was estimated at the trial at between \$2,000 and \$3,000. The government called ten witnesses and held three in reserve. O'Donnell pleaded not guilty and presented no witnesses. The police are trying to establish O'Donnell's connection with the parties that attempted to blow up the iron work on the new county bridge over the Taunton river, some months ago.

## TROOPS KILL FOUR IN ITALY.

Riots as a Result of the Recent Earthquake Occur in Calabria.

Naples, June 24.—According to a dispatch to Mattino from San Vito, Calabria, a demonstration of protest against the negligence exhibited by authorities repairing the ruins caused by the recent earthquake in the Commune Olivadi has resulted in serious disorders. The Carabinieri were called out and were attacked by a mob with showers of stones, many soldiers being injured. They replied by firing upon the crowd. Four people were killed and eight injured, including a young girl. Similar disorders are reported at Guardia Piemontese and Acquafredda. Two companies of infantry have been ordered to the scene from Catanzaro.

## STOVE HOLE IN JAIL

## WALL WITH HER FIST.

Through It Anna Klock Escaped, Leaving Note That Angered the Police.

Waterbury, Ct., June 24.—Mrs. Anna Klock, a prisoner in the Naugatuck lock-up, escaped by the simple expedient of smashing a hole in the brick wall with her fist and crawling through. She left behind her corsets and her shoes, and a frank note to the police which she refused to make public. However, they say the note is as insulting as the escape was daring.

Mrs. Klock was arrested, charged with the theft of a silk skirt. When the police force looked at her at 5 in the morning she was apparently asleep on a bench in the corridor. When the police force brought her breakfast at 6, however, she was gone.

The strenuous prisoner simply arose from her couch and battered a hole in the brick wall. The opening she made was 7 1/2 by 18 inches, and through this she managed to squeeze. The corsets impeding her passage, she cast them aside.

## WAS HEAD OF TIN PLATE TRUST.

Passing of William D. Leeds, American Financier.

Paris, June 24.—William D. Leeds, the American financier, died suddenly at the Hotel Ritz yesterday morning at 10:30. Mr. Leeds came abroad for the benefit of his health, which had been failing for several years past. He had improved considerably of late, however, and he was making preparations to sail for America to-day. He was taken with a sudden sinking spell during the night and gradually lost consciousness. He could not be revived and died this morning with his wife and son at his bedside.

The body will be sent to New York June 27. The fortune of Mr. Leeds is estimated by intimate friends in Paris at \$35,000,000.
